

Sage Intacct

Accounting software for Subscription and SaaS businesses

The #1 subscription and revenue management software

At Solutions, we understand that introducing new software is a big deal and there is a fear it can be disruptive to the running of your business. We promise to make the transition as smooth as possible and support you every step of the way.

Our experts are experienced and fully accredited in Sage Intacct, ensuring they are up to speed with the latest features and functionalities. This means that your Sage solution will be configured for maximum positive business impact, and getting you up and running will be quick and painless.

A powerful foundation built for success.

Smarter subscription management software - from quote to financial forecast.

Subscription & SaaS Management Software

Consultancy

The first step of implementing a new Sage Intacct system is the 'discovery' phase. Our accredited consultants will take the time to understand how your business works and what processes are critical to its success. We'll then be able to advise on how best to configure Sage Intacct to support those processes, and empower your staff to be efficient and effective using this powerful and innovative solution.

It is our mission to ensure that Sage Intacct makes your accounting processes more intuitive and automated enabling your staff to appreciate the system and enjoy using it.

Our consultants are able to draw upon many years' experience with well over one thousand successful Sage implementations between them. Working in collaboration with our developers and support technicians, they take pride in helping you to improve the way you manage your business accounting with Sage.

Product Details

Sage Intacct helps Finance Managers and CFOs access integrated management and financial reporting across their business entities focusing on growth and drive. This intuitive solution delivers the automation and controls around billing, accounting and reporting, as well as reducing errors enabling you to stay audit-ready and focus on what's more important - scaling your business!

With compliance, financial reporting and subscription billing all in one scalable solution; Sage Intacct is the # 1 software to help you improve quote-to-cash efficiency and automate multi-element revenue recognition.

Innovation is in the DNA of Sage Intacct - industry analysts have named this product as a 'visionary' and a 'leader'. Sage Intacct's modular true cloud accounting solution meets your business needs, giving you the flexibility to easily add more functionality.

Investors want you to prove your business model. Sage Intacct's SaaS metrics dashboards calculate customer acquisition costs (CAC), customer life time value (CLTV), committed monthly recurring revenue (CMRR), gross churn, customer churn and other critical KPIs.

Sage Intacct subscription revenue management software uniquely lets you tag unlimited dimensions on your journal entries to provide the calculations for real-time SaaS dashboards, enabling:

- Early-stage firms to prove revenue models
- Growth-stage firms to prove net renewal models

Keep your organisation agile with an open, configurable, cloud accounting solution that lets you easily share data and connect multiple solutions (including Salesforce) with your financial foundation. Your entire organisation can leverage intuitive, easy-to-use systems that your staff around the world can learn and navigate efficiently.

Sage Intacct

Features

Core Financials - Automate complex processes and multi-dimensional data analysis.

Dashboards and Reporting - Intuitive dashboards provide fast, yet rich, financial and operational performance.

Contract Management - Complete control of contract lifecycles, billing and revenue recognition.

Budgeting and Planning - Powerful planning and budgeting that's easy to deploy and use.

Projects - Manage all aspects of project accounting, from billing to timesheets and expenses.

Advanced Functionality - Flexible additional modules for total financial management.

Web Services API - Easily integrate with other best-in-class solutions.

As a best-in-class provider, Sage Intacct cloud accounting software products and financial management solutions deliver deep accounting capabilities across multiple industries designed with a single aim - to accelerate your success.

Projects, Implementation & Training

A Sage Intacct expert will be allocated to your project. They'll work with you to determine how Sage Intacct can be configured to support your business processes and deliver the maximum positive impact within your business. Our experts will ensure the transition between your existing accounting solution and Sage Intacct is painless, with minimal downtime.

We provide training by Sage accredited product specialists, and tailor training sessions to best suit you and your business. Training can be carried out at your offices in the form of classroom, group or one-to-one sessions depending on your requirements. We'll work with you to understand the level of training required.

Solutions Support

We are an award winning Sage Platinum Partner and offer a personalised, friendly first line service to your users. Your staff will get to know our technicians personally, creating an environment of trust and understanding in which any issues are resolved rapidly.

Our Support Technicians promptly solve cases and offer premium customer service, whilst ensuring accreditations are always up to date with on-going training for new releases. This enables quality expert service from those who know the ins and outs of your product.

The team includes consultants who have decades of experience working in the accounting industry and technical specialists who are accounting accredited. This wealth of knowledge means we can better understand your queries, gauge impact and provide the appropriate solution.

We pride ourselves on providing first class customer service, and as such, we are constantly looking for ways to enhance your support experience. Our customer service representatives work alongside our support team to monitor response times, manage prioritisation and maintain open communications with your staff. Their mission is to ensure that your business systems remain fully operable at all times, and users are confident and comfortable with technology.

Why Sage Intacct?

Voted as the #1 cloud accounting and financial management software for customer satisfaction, Sage Intacct helps Finance Managers and CFOs access integrated management and financial reports across their business entities focusing on growth and drive. This intuitive solution delivers the automation and controls around billing, accounting and reporting, as well as reducing errors enabling you to stay audit-ready and focus on the more important things, like scaling your business.

Sage Intacct works directly with Salesforce to develop, maintain and support a Salesforce certified integration. With each new release of either product, Sage works directly with Salesforce to automatically deliver a newly certified integration to the customer.

Customer success remains at the heart of Sage Intacct's business model. This is reflected in industry leading levels of customer satisfaction. On leading business software review platform, G2 (formerly G2 Crowd), Sage Intacct has the highest customer satisfaction score for both accounting software and ERP Suites.
