

Product Code Changer/ Merger

Sage Business Partner

Solutions
for **Accounting**

Quickly and easily change or merge codes in Sage 50/ Sage 50cloud Accounts

Solutions for Accounting' Product Code Changer solution allows you to change your Sage product account data in a way that is not possible within Sage Accounts itself. We understand the frustration finance teams have with evolving your system to meet current business needs, so our software has been designed to allow you do this whilst retaining full transaction history including sales and purchase order postings, recurring items and accruals.

Businesses evolve over time and your software needs to be able to reflect these changes. Reporting on Product Codes is critical to most companies. Currently in Sage 50 Accounts it is not possible to change a product/stock code, instead a new one needs to be created, but to remove an existing one it needs to have no transactions against it. Our add-on provides you with the flexibility you require, improving productivity and profitability.

FEATURES:

- Change a Product Code into a different Product Code as long as it doesn't already exist
- Change it globally within Sage, e.g., on;
 - Invoices
 - Sales Orders
 - Purchase Orders
 - BOM on other products
 - Price Lists

BENEFITS:

- ✓ Edit multiple codes with a click of a button
- ✓ Retain full transaction history
- ✓ Clear and concise code structure
- ✓ Better management and organisation of Sage 50 Accounts
- ✓ Update your Sage 50 Accounts to reflect new business changes

In order to change a Product Code;

- The Codes must not already exist
- It must match the Sage convention of Product Codes

After use the Data Service MUST be restarted, along with ALL other Sage Data Services connected to the data from other machines.

CODE CHANGERS AND MERGERS INCLUDE:

- Nominal Code Changer and Merger
- Customer Code Changer and Merger
- Supplier Code Changer and Merger
- Department Code Changer and Merger
- Product Code Changer
- Fixed Asset Code Changer

WHY CHOOSE US?

Whichever option you choose, be sure to know that **Solutions for Accounting** will be there every step of the way, to make sure you receive a best-in-class experience.

We are extremely proud of everything we deliver for our customers, which is shown in our recent [customer success stories](#).

“Software was sent over quickly after payment; very easy to install and operate, no complaints. Very useful software as it provides functionality that the core software doesn’t.”
