

Think Sage Add-ons. Think Solutions.

Sage 200 Financials Extra Narrative Module

Our Sage 200 Financials Extra Narrative Module extends the standard functionality of the Sage 200 Financials system to include a narrative field against Sales and Purchase Ledger transactions. This is a single field of 60 characters that can be used to enter a brief description of the transaction e.g. 'Monthly Charge for May 2017'.

Features

- ✓ Extends narrative available within the Sales Ledger and Purchase Ledger of Sage 200.
- ✓ Only one narrative per transaction.
- ✓ Narrative field also available within receipts.
- ✓ Narrative visible against all transactions on the enquiry and allocation forms.
- ✓ Mistakes can be corrected via the Amend Transaction form.
- ✓ Modifications to Sales & Purchase Order Processing forms allow the user to specify narrative for final invoice.

Benefits

- ✓ Saves drilling into a transaction by making transactions easily identifiable.
- ✓ Ideal for businesses migrating from Sage 50 where the standard two reference fields are insufficient.
